Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS—FOLLOWS CONTENTS

Un 35
v.42 cop.9

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

1028333

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

PROCESSED MATERIAL

Because of the great amount of important material now issued by the various divisions of the United States Government in processed form (i. e., publications which are reproduced by duplicating processes other than ordinary printing, such as mimeograph, multigraph, planograph, rotaprint, multilith, etc.), it has been decided to enter in the Monthly Catalog, beginning with the January 1936 number, such current publications of this type as would seem of sufficient importance to the general public to warrant such entry. This will include publications of a periodical nature, or which make up a well defined series, also bibliographies and miscellaneous publications of general interest. Processed material of a confidential character, or of interest only to the Government departments issuing it will necessarily continue to be omitted from the Monthly Catalog but will be entered in the Document Catalog. It is true that many of these publications, both because of the type and paper, are not, in all probability, of permanent value. However, it is considered that since the information given is often the result of careful research, the public is entitled to know of its existence. Many of the departments and bureaus issue material for the press in this form. Unless it is issued regularly or in a numbered series, no entry will be made in the Monthly Catalog for such publications since it is considered that that information will be obtainable in newspapers and other current periodicals.

As a general rule, there will be no distribution of this processed material from the Office of the Superintendent of Documents, and those libraries desiring to obtain such publications should ask to be included on the mailing lists of the various departments issuing them.

Publications produced at the Government Printing Office by the "offset" method will carry the Government Printing Office imprint and such publications will not be designated "processed" in the entries in our Monthly Catalog.

GOVERNMENT PUBLICATIONS

A new edition of the Classified List of United States Government Publications Available for Selection by Depository Libraries has recently been issued by the Superintendent of Documents. In order to enable libraries to make the selection of public documents required, this list has been prepared, arranged alphabetically by executive departments (or independent establishments), and by bureaus and series thereunder, with a brief description of the character of the publications. An opportunity to make selection of new publications not covered by this list will be given to libraries from time to time in the future, as necessity may arise.

This list includes all classes of publications made available for distribution to the libraries and replaces the other lists previously issued for selective purposes. It is distributed to depository libraries without charge by the Superintendent of Documents, Government Printing Office, Washington, D. C.

AGRICULTURAL ADJUSTMENT ADMINISTRATION

Certain provisions of the Agricultural Adjustment Act were held to be unconstitutional by the Supreme Court of the United States in its decision of January 6, 1936, in the case of the United States *vs.* William M. Butler et al., receivers of Hoosac Mills Corporation. In spite of the curtailed activity of the Agricultural Adjustment Administration resulting from the Court's decision, a number of publications issued by the Administration were received by the Office of the Superintendent of Documents, during the period of the present Monthly Catalog, and are listed on p. 6 and 7.

FEDERAL BOARD OF SURVEYS AND MAPS

The Federal Board of Surveys and Maps was established by the President through Executive Order 7262 of January 4, 1936, in order to coordinate the activities of the various map-making and surveying agencies of the Government, to standardize the results of such activities, and to avoid unnecessary duplication of work. This order amends Executive Order 3206 of December 30, 1919, establishing the original Board of Surveys and Maps.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 18. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

as the reports of the divisions vary in order from year to year, many have found their designations, as Appendix 1, 2, 3, or 4, very confusing. To relieve this, it has been decided to number them as Administrative reports. Inasmuch as 20 separates have already been printed in this series (without the series designation) it is deemed advisable to begin the numbering with Administrative report 21. For the information of those who wish to know what the first 20 were, they are listed in Administrative report 21, here cataloged.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1935, page 194.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."
Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 82 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

United States Government Manual

The United States Government Manual for 1936 has recently been published in loose-leaf form. This edition supersedes the one for 1935, and contains an outline of the functions and organization of the Federal Government agencies, both permanent and of emergency character. Factual information provided in the Manual has been authenticated and approved by the heads of the respective departments and agencies and their chief counsel. It is designed to provide the answers to many questions concerning methods of organization, functions, and procedure. Information contained in the Manual will be kept currently revised with new or substitute pages for the body of the book and the index. Organization charts will also be included. Changes in functions of the agencies resulting from new legislation or new regulations will be recorded from time to time. The National Emergency Council has arranged for the free distribution of the Manual to depository libraries. Others desiring copies may obtain them from the Superintendent of Documents, at the price of $2, which will include the 1936 Manual in its original form as well as revisions and additions, until December 31, 1936. Remittance must be by check or money order payable to the Superintendent of Documents and addressed to the National Emergency Council, 1423 F Street NW., Washington, D. C.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepared and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 123. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—The 1935 issue of the Foreign commerce yearbook resumes this series of annual compilations of foreign economic statistics after a lapse of one year. The volume is intended as a handbook, presenting the most recent basic statistical information available, but does not purport to be a complete record of current conditions. In this respect it may be supplemented by another annual publication of this bureau, the World economic review, of which the edition covering important economic developments in all major countries during 1934 has recently been issued, and by the weekly Commerce reports, in which conditions abroad are regularly reported.

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents in single copies. These are not enumerated in this catalog, but may be obtained for 10c. each at the Patent Office.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10.00 per volume, and those in stock may be obtained from the Superintendent of Documents, Washington, D. C. The Rules of practice and pamphlets containing Patent laws, General information concerning patents, and General information about protection of trade-marks, prints, and labels are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $2.00 per package, or in books containing 100 coupons at $10.00 per book. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office, Washington, D. C.

GEOGRAPHICAL NAMES BOARD

NOTE.—The United States Geographic Board, established in 1890 under the designation "United States Board on Geographic Names", was abolished and its functions transferred to the Department of the Interior, to be administered under the supervision of the Secretary of the Interior, by Executive order 6680, dated Apr. 17, 1934, effective June 16, 1934. The work has since been carried on by two units, the Division of Geographic Names and the Advisory Committee on Geographic Names. On Dec. 10, 1935, the Secretary of the Interior issued an order, No. 1010, stating that hereafter, these two units together (since in fact they constitute the administrative and technical parts of one functioning whole), will be designated the United States Board on Geographical Names.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to $5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see below.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, correspond-

ing, approximately, to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Twenty-five of the topographic maps covering areas in New Jersey are out of print, the Survey not reprinting the maps as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which also publishes some of its maps on a larger scale. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to $5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.

NOTE.—The first issue of the Digest covered bills and joint resolutions of the 1st session of the 74th Congress reported or further advanced during 1935. For the convenience of the Members those bills and resolutions were carried in the issues of Jan. 25 (no. 2) and Feb. 11 (no. 3) regardless of whether they had been further acted on or not. Since the Digest cumulates all public general bills and joint resolutions of the 2d session as introduced, nos. 4 and 5 carry only such of the measures introduced in the 1st session as have been acted upon in 1936. For analysis of measures which have simply retained their status as of the close of the 1st session, it is suggested that any of the first 3 numbers of the Digest be consulted.

TOPOGRAPHY DIVISION

NOTE.—A list of post route maps, prepared primarily for the postal service but available to the public, is given below. New editions are published about once a year. Each of these maps shows all post offices within the State and indicates how each is supplied with mail. County boundaries are shown and each county is named, but only the principal drainage features are delineated. These maps show no highways and only such railroads as carry mail. The maps listed at 60 cents each are single-sheet maps; those priced at $1.20 are 2-sheet maps.

Rural delivery routes, not indicated on the post route maps, are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (nos. 84 and 85 of which are listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS—FOLLOWS CONTENTS

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office; neither can the dealers' discount be allowed on the Federal Register).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

NATIONAL ARCHIVES

One of the new and important departments of the Government organized during the last few years is the National Archives. This department was established under provisions of H. R. 8910, 73d Congress (Public no. 432, approved June 19, 1934), which created the Office of Archivist of the United States, gave him authority to make rules and regulations for the government of the National Archives, and put under his charge and superintendence, to the extent defined in the act, all archives or records belonging to the Government of the United States (legislative, executive, judicial, and other). This National Archives Act recognizes two fundamental functions of the archives establishment: First, the care and preservation of all Government archives of such administrative or historical value that they must be kept for a long period of time; Second, the administration of these archives so as to facilitate their use in the business of Government and in the service of scholarship. A section of the act authorizes the Archivist to "accept, store, and preserve motion picture films and sound recordings pertaining to and illustrative of historical activities of the United States." The value of the various papers and files thus deposited will vary from such priceless documents as the original laws and original treaties of the United States to vast quantities of papers which in themselves would appear to be relatively unimportant were it not for the relation which they bear to larger questions.

FEDERAL REGISTER DIVISION

Another duty delegated to the Archivist of the United States was the establishment of the Federal Register Division under the provisions of H. R. 6323, 74th Congress (Public no. 220, approved July 26, 1935), known as the Federal Register Act. This is an act to provide for the custody in the National Archives Establishment of Federal proclamations, orders, regulations, notices, and other documents, and for prompt and uniform printing and distribution thereof. This act also provides for the printing of the Federal Register. The Archivist, acting through the Federal Register Division, is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of the Federal Register Act.

FEDERAL REGISTER

The Federal Register, a new serial publication in which appear the documents required to be published under the Federal Register Act, is issued on Tuesday, Wednesday, Thursday, Friday, and Saturday, excepting where such days follow a legal holiday. The first issue was that of March 14, 1936, its earlier publication having been prevented by lack of necessary appropriations. The Register contains (1) all Presidential Proclamations and Executive Or-

ders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof, (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect, and (3) such documents or classes of documents as may be required so to be published by act of the Congress. In addition to the foregoing there shall also be published in the Federal Register such other documents or classes of documents as may be authorized to be published pursuant to regulations prescribed with the approval of the President, but in no case shall comments or news items of any character whatsoever be authorized to be published in the Federal Register.

The Register is sold by the Superintendent of Documents, Government Printing Office, Washington, D. C., on the following terms: Single copy, 5c.; $1.00 per month; $10.00 per year.

PRESIDENTIAL PROCLAMATIONS AND EXECUTIVE ORDERS

The Executive Orders and Proclamations of the President, entered under their author, the President of United States, in the catalogs issued by the Documents Office, have been distributed by the Department of State. This distribution, beginning with March 12, 1936, has been transferred from the Department of State to the Division of the Federal Register, National Archives. Such Executive Orders and Proclamations as have general applicability and legal effect, except such as are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof, will be published in the Federal Register only. The others will be issued in the usual separate form, free distribution of which will only be to appropriate agencies of the Government. If copies of the Executive Orders and Proclamations which do not appear in the Federal Register are desired, they can be obtained by placing a standing order with the Superintendent of Documents, Government Printing Office, Washington, D. C., with an initial deposit of $5.00. The individual price will be 5c. per copy. Those Executive Orders and Proclamations published in the Federal Register only will have title entries in the Monthly Catalog with reference to the Federal Register in which they occur.

INDUSTRIAL ANALYSIS COMMITTEE

The President, through Executive Order 7323 of March 21, 1936, created a Committee of Industrial Analysis to complete the summary of the results and accomplishments of the National Recovery Administration. The Committee is authorized to assemble and analyze the statistical information and governmental records of experience of the operations of the various trades and industries heretofore subject to codes of fair competition formulated under the authority of title 1 of the National Industrial Recovery Act; to study the effects of such codes upon trade, industrial and labor conditions in general; and to make generally available information with respect to industry, particularly hours, wages, child labor and other labor conditions. In order to aid the Committee of Industrial Analysis in carrying out its duties, there was created by the same Executive Order, in connection with the Office of the Secretary of Commerce, a Division of Industrial Economics.

FOREIGN RELATIONS OF UNITED STATES

The Department of State has recently published two volumes of a three-volume set entitled Papers Relating to Foreign Relations of United States, 1920.

The third volume is still in press. This set continues the series of papers on our foreign relations, publication of which has extended over a period of years. The present volumes contain official documents concerning Bolivia, Canada, China, American-Cuban relations in 1920, negotiations between the United States and Germany concerning reparations, ships, and dye deliveries, and the occupation of the Rhineland by the Allied and Associated Powers, as well as other documents of a general nature. The delay in the publication of these volumes of diplomatic history is due to the fact that permission to publish some of the foreign documents was only recently obtained from the nations involved.

Volumes 1 and 2 of Papers Relating to Foreign Relations of United States, 1920, in cloth binding and averaging over 800 pages to a volume, are for sale at $1.75 each by the Superintendent of Documents, Government Printing Office, Washington, D. C.

MARITIME COMMERCE IN WAR

The second volume of the series entitled Policy of United States toward Maritime Commerce in War, prepared by Carlton Savage and covering the years 1914–1918, with documents, has recently been issued. This survey is based on official documents, the texts of which will be found in the volume. In volume 1, issued in 1934, and covering the period from 1776 to the beginning of the World War, attention is focused on the following problems: (1) enemy goods in neutral ships; (2) neutral goods in enemy ships; (3) definition of contraband of war; (4) continuous voyage; (5) validity of blockade; (6) immunity of private property at sea. Volume 2 continues the treatment of these problems and deals also with important related problems which arose during the years 1914 to 1918. A print of volume 2, not including the texts of the listed documents, was issued by the Department of State on January 17, 1936, as Publication 821, and appeared in the Monthly Catalog for January 1936, page 87.

Volume 2, including the documents, is for sale in blue cloth binding, at $1.75 per copy. Orders should be sent to the Superintendent of Documents, Government Printing Office, Washington, D. C.

BETTER HOUSING

The periodical Better Housing, which was discontinued in its original form by the Federal Housing Administration on May 4, 1935, has been revived in a new and different form, beginning with the issues for March 1936. Though outwardly the same, it differs in many vital respects from the former publication. Better Housing will be distributed by the Federal Housing Administration only to members of the Field Division, to a list of Better Housing Committee chairmen and chairmen of Women's Divisions. It is intended to serve as a medium for the interchange of unusual and constructive ideas and plans among the individual members of these groups. Through the columns of Better Housing, the most effective methods developed in one section of the country will be transmitted to every other field office and committee headquarters.

BULLETIN OF DECISIONS OF PATENT OFFICE

A Bulletin of Decisions of Patent Office on Trade Marks, Labels, and Prints has recently been added to the Official Gazette of the Patent Office. This Bulletin contains abstracts of decisions of interest to attorneys practicing before the Office, and as a result of popular demand the material now appears in the last issue of the Official Gazette for each month, and lists the decisions rendered by

the Patent Office during the preceding month. The Bulletin is also issued as a part of the separate leaflet entitled Decisions in Patent and Trade-Mark Cases, and the combined publication may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at the rate of 5c. a single copy, $1.00 a year, foreign subscription, $1.80.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 254. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

Business information service. [Processed.] † except as indicated in note below. C 18.182 and 183 :

NOTE.—This service, issued by the Marketing Research and Service Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any business organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations prescribed by the Foreign and Domestic Commerce Bureau. Private organizations can obtain the service on a subscription basis, payable $10.00 annually, at the Foreign and Domestic Commerce Bureau.

GEOLOGICAL SURVEY

Note.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to $5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1936, page 211.

Executive orders.

NOTE.—The Federal register act, Public no. 220, 74th Congress (49 Stat. 500–503) provides as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

The distribution of Executive orders and Proclamations has been transferred, beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will only be to appropriate agencies of the Government. If copies of the Executive orders and Proclamations which do not appear in the Federal register are desired, they can be obtained by placing a standing order with the Superintendent of Documents, Washington, D. C., with an initial deposit of $5.00. The individual price will be 5c. per copy. The Register will be sold by the Superintendent of Documents on a subscription basis of $1.00 per month or $10.00 per year. Those Executive orders and Proclamations published in the Federal register will not be issued separately, but title entries for such Executive orders and Proclamations, with reference to the Federal register, appear above and below.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

WAR DEPARTMENT

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

Note.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS—FOLLOWS CONTENTS

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office; neither can the dealers' discount be allowed on the Federal Register).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

ELECTRIC HOME AND FARM AUTHORITY

The Electric Home and Farm Authority, which was created by Executive Order 7139 of August 12, 1935, to aid in the distribution, sale, and installation of electric apparatus, equipment, and appliances (together with plumbing and other apparatus, equipment, and appliances operated thereby or in connection therewith) in such manner as to make practicable the use in homes and on farms of high quality, low-cost, time- and labor-saving electrical equipment, has been continued under the provisions of S. 3424, 74th Congress (Public no. 484, approved March 31, 1936) as an agency of the United States until February 1937, or such earlier date as may be fixed by the President by Executive Order.

COORDINATOR FOR INDUSTRIAL COOPERATION

By Executive Order 7193 of September 26, 1935, the President appointed George L. Berry as Coordinator for Industrial Cooperation, an office which grew out of the work of the National Recovery Administration. This office has now been extended by Executive Order 7324 of March 30, 1936, with the following functions and duties:

> To arrange for and supervise, subject to the direction of the President, conferences of representatives of industry, investors, labor and consumers for consideration of means of supplementing the Government's efforts by providing employment for the greatest possible number of employable persons and of improving and maintaining industrial, commercial and labor standards as they affect employment, and to submit reports and recommendations to the President with respect thereto.

ADDITIONAL VOLUMES OF IMPORTANT SETS

A second volume of the set of Navy Department historical manuscripts entitled Naval Documents Related to Quasi-War between United States and France, which was spoken of in detail in the Notes of General Interest in the Monthly Catalog for July 1935, has been issued. This new volume of early documentary material dealing with American naval history covers the period from November 1798 to March 1799. This volume, like the first one issued, is for sale by the Superintendent of Documents for $3.50, this price applying also, in this case, to depository libraries.

The first two volumes of the three-volume set of Papers Relating to Foreign Relations of United States, 1920, were listed in the Monthly Catalog for March 1936, and described in the Notes of General Interest included in that number. Volume 3 has now come from the press and contains official documents concerning countries in Asia, Europe, Africa, and South America, the larger part of the volume being made up of important papers dealing with our relations with Japan, Liberia. Mexico, Russia, and Turkey. This volume is obtainable from the Superintendent of Documents at $1.75 in cloth binding.

INTERESTING PUBLICATIONS OF THE MONTH

It has not been the policy of the Monthly Catalog to relist in the Notes of General Interest those publications entered in the current catalog, but at

times it would seem helpful to call attention to a few of the outstanding ones. For instance, flower lovers surely will be interested in two new Agriculture Department Circulars listed under the Plant Industry Bureau, both written by David Griffiths—one on Speeding Up Flowering in Daffodil and Bulbous Iris (Circular 367), and another dealing with Tulips (Circular 372).

Those who have to deal with cookery in large quantities will be glad to know about a publication issued by the Indian Affairs Office entitled Manual for Cooks in Indian Service. The menus and recipes are prepared for use in Indian boarding and day schools and are formulated for the serving of 25 or 100 persons. This publication is bound in paper and sells for 15c.

The Education Office is issuing a series of very helpful bibliographies. In this catalog are listed: Good References on Pictures, Maps, Charts, etc., as Classroom Aids; Good References on Elementary Education: Classification, Grading, Promotion; and Good References on Activity Program. These lists will appeal especially to teachers.

This is the time of year that pamphlets issued by our National Park Service make doubly attractive our national parks, and under the Interior Department, National Park Service, a number of publications are listed that will appeal to the summer traveler. These descriptive booklets may be obtained for the asking.

A new edition of the Civil Service Act and Rules, etc., amended to June 30, 1935, has been issued. Although most of the Civil Service Commission publications are given away, this one must be purchased from the Superintendent of Documents at 15c.

Many will be interested in a recent publication of the National Bureau of Standards entitled Weights and Measures in Congress, Historical Summary Covering Period of Continental Congress to and including Adoption of Joint Resolutions of 1836 and 1838, by Sarah Ann Jones. This paper presents a detailed account of the steps taken to secure uniformity in weights and measures in the United States, and was used in a thesis submitted to the faculty of the division of library science of the George Washington University in partial fulfillment of the requirements for the degree of master of arts in library science. It is designated as National Bureau of Standards Miscellaneous publication M122. Its sales price at the Office of the Superintendent of Documents is 5c.

Librarians, especially those handling United States Government publications, will be glad to know of the list of United States headings, just off the press, which has been issued by the Union Catalog, Library of Congress. Its title is United States Author Headings, Including Those Adopted by Library of Congress, as Appearing in Union Catalog. This list was originally designed as a help to those engaged in revising and arranging entries under "United States" in the Union Catalog, and to users of the catalog who were uncertain as to the entries for U. S. documents. The first issue of 50 mimeographed copies was expected to meet all requirements; but a second mimeographed issue (150 copies, with additions and revisions) was soon exhausted. Continued requests for additional copies warranted the publication of the printed edition. It contains all the main entry headings under United States as author as well as added entries and selected cross-references which appear in the Union Catalog, including those established by the Catalog Division of the Library of Congress and some contributed by other libraries. It can be obtained from the Card Division, Library of Congress, for $1.00 in cloth binding and can be charged to card accounts.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

COAST AND GEODETIC SURVEY

Note.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 374. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

Business information service. [Processed.] † except as indicated in note below. C 18.182 and 183:

NOTE.—This service, issued by the Marketing Research and Service Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any business organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations can obtain the service on a subscription basis, payable $10.00 annually, at the Foreign and Domestic Commerce Bureau.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1936, page 211.

SMITHSONIAN INSTITUTION

Note.—In a recent price list, the Smithsonian Institution publishes this notice; "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to book dealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz, Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

SOCIAL SECURITY BOARD

NOTE.—The Social Security Board was established under the provisions of H. R. 7260, 74th Congress (Public 271, approved Aug. 14, 1935), an act to provide for general welfare by establishing system of Federal old-age benefits, and by enabling the several States to make more adequate provision for aged persons, blind persons, dependent and crippled children, maternal and child welfare, public health, and administration of their unemployment compensation laws. The board was created to perform the duties imposed by this act and is also charged with the duty of studying and making recommendations as to the most effective methods of providing economic security through social insurance, and as to legislation and matters of administrative policy concerning old-age pensions, unemployment compensation, accident compensation, and related subjects.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws and treaties) are numbered consecutively in the order

in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 87 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS—FOLLOWS CONTENTS

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office; neither can the dealers' discount be allowed on the Federal Register).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

RURAL ELECTRIFICATION ADMINISTRATION

A Rural Electrification Administration was established by Executive Order 7037 of May 11, 1935, to initiate, formulate, administer, and supervise a program of approved projects with respect to the generation, transmission, and distribution of electric energy in rural areas. This was a temporary organization created under authority of the Emergency Relief Appropriation Act of 1935. There has now been created and established under the provisions of S. 3483, 74th Congress (Public no. 605, approved May 20, 1936), an agency of the United States to be known as the Rural Electrification Administration, all of the powers of which shall be exercised by an Administrator, who shall be appointed by the President, by and with the advice and consent of the Senate, for a term of ten years. The Administrator is authorized and empowered to make loans in the several States and Territories of the United States for rural electrification and the furnishing of electric energy to persons in rural areas who are not receiving central station service; to make, or cause to be made, studies, investigations, and reports concerning the condition and progress of the electrification of the rural areas in the several States and Territories; and to publish and disseminate information with respect thereto. Section 8 of the above act reads as follows: The administration of loans and contracts entered into by the Rural Electrification Administration established by Executive Order numbered 7037, dated May 11, 1935, may be vested by the President in the Administrator authorized to be appointed by this Act; and in such event the provisions of this Act shall apply to said loans and contracts to the extent that said provisions are not inconsistent therewith. The President may transfer to the Rural Electrification Administration created by this Act the jurisdiction and control of the records, property (including office equipment), and personnel used or employed in the exercise and performance of the functions of the Rural Electrification Administration established by such Executive order.

SECOND EXPORT-IMPORT BANK OF WASHINGTON, D. C.

Pursuant to authority granted by the National Industrial Recovery Act, the President directed by Executive Order 6581 of February 2, 1934, the organization of a District of Columbia banking corporation under the name of Export-Import Bank of Washington. The purpose of the bank was to aid in the financing and to facilitate exports and imports and the exchange of commodities between the United States and any of its territories and insular possessions and any foreign country or its agencies or nationals. The bank was formed originally for the purpose of facilitating United States trade with the Soviet Union, but subsequently its operations were extended for the benefit of trade with the rest of the world. The organization of another District of Columbia banking corporation under the name of Second Export-Import Bank of Washington, D. C., was directed by Executive Order 6638 dated March 9, 1934, its purpose, powers, and organization being substantially the same as the Export-

Import Bank of Washington. Its activities were confined to transactions with the Export-Import Bank. The Second Export-Import Bank of Washington, D. C., has now sold and transferred to the Export-Import Bank of Washington all of its existing commitments and has discontinued its active operation, and the President has, by the provisions of Executive Order 7365 of May 7, 1936, directed its dissolution effective June 30, 1936.

NEW EDITIONS OF SPECIAL INTEREST

In February 1934, a supplement to the Style Manual of the Government Printing Office was issued entitled Foreign Languages, for Use of Printers and Translators. In April 1935, another edition was demanded, and now, the growing appreciation of the Manual of Foreign Languages has made necessary the issuance of a third edition greatly revised and enlarged from the previous editions, and containing the addition of a group of languages that were not contemplated in previous editions. It was prepared with a view to affording editors, catalogers, and bibliographers, as well as printers, a broader, more adequate basis of information for their respective tasks. The manual is purposely condensed for ready reference and is intended merely as a guide, not a textbook. It has been prepared by George F. von Ostermann, the foreign-language editor of the Government Printing Office, and is considered a valuable authority. It is bound in buckram and is obtainable from the Superintendent of Documents for $1.25.

Another publication which has proved so valuable that another edition was demanded is Little Waters, a Study of Headwater Streams & Other Little Waters, Their Use and Relations to the Land, by H. S. Person, with cooperation of E. Johnston Coil and Robert T. Beall. It is listed in this catalog under the Rural Electrification Administration, although it was also prepared for the Soil Conservation Service and the Resettlement Administration. Of it, the President says in his letter of transmittal: "This report treats of a subject with which the physical well-being of our people is intimately bound up, yet to which, in the past, too little attention has been paid. We have grown accustomed to dealing with great rivers, with their large problems of navigation, of power, and of flood control, and we have been tempted to forget the little rivers from which they come. The report points out that we can have no effective national policy in those matters, nor in the closely related matter of proper land uses, until we trace this running water back to its ultimate sources and find means of controlling it and of using it." This publication is also obtainable from the Superintendent of Documents in paper covers for 15c.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 526. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1936, page 211.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis,* except where price is given, and should be ordered by the *publication numbers,* arranged in *sequence.* The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals.* A library making application to be

listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress.'

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to establish lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published

in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 88 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, National Archives, see Federal Register Division, *Federal register*, p. 623.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS—FOLLOWS CONTENTS

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office; neither can the dealers' discount be allowed on the Federal Register).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

CHANGES IN GOVERNMENT ORGANIZATIONS

Previous to June 30, 1932, there existed in the Commerce Department, two bureaus known as the Bureau of Navigation and the Steamboat Inspection Service. These had both been transferred on July 1, 1903, from the Treasury Department to the then newly organized Department of Commerce and Labor (later Department of Commerce). Under the provisions of the act making appropriations for the legislative branch of the Government, fiscal year 1933, approved June 30, 1932, the Steamboat Inspection Service and the Bureau of Navigation of the Department of Commerce were merged into one bureau to be known as the Bureau of Navigation and Steamboat Inspection. Now, a second change in title has taken place. Public no. 622, 74th Congress, approved May 27, 1936, provides that the Bureau of Navigation and Steamboat Inspection in the Department of Commerce shall hereafter be known as the Bureau of Marine Inspection and Navigation.

INDEX-CATALOGUE OF LIBRARY OF SURGEON GENERAL'S OFFICE

The Library of the Surgeon General's Office, known as the Army Medical Library, was started in the year 1836 when the Surgeon General established a collection of books in his office for the use of his staff. In 1840, a manuscript catalogue was prepared consisting of 23 unnumbered leaves, listing 130 titles. The first printed catalogue was published in 1864. It has 32 pages, measuring 5 × 7½ inches, and contains 602 titles. From this modest beginning the Library's collection has grown to more than a million items in the space of 70 years and forms what is now the largest medical library in the world.

In 1873, Surgeon John Shaw Billings, United States Army, began the Index-Catalogue, a work in which, under both authors and subjects, the medical literature of the world could be found. The first volume was printed in 1880 and the last volume, v. 16, in 1895. The second series appeared volume by volume between 1896 and 1916, 21 volumes in all. The third series was published in 10 volumes from 1918 to 1932. The smaller number of volumes resulted from the decision that pamphlets would no longer be indexed separately as they were already indexed as journal articles. There were also some omissions in this series which will be included in the fourth series of which the first volume has now been issued.

The Index-Catalogue is costly to publish, for not only does its preparation involve the full-time effort of a group of specially trained personnel, but its printing is the most difficult piece of typography attempted in the United States, as the Government Printing Office has frequently stated. The edition of 1,000 copies costs approximately $33,000 or about $33 per individual volume. But this is really a small price for an indispensable publication, without which medical science would receive a setback of the first magnitude. As Virchow in Germany and Welch in the United States, and others, have stated: "The Index-Catalogue of the Army Medical Library is America's greatest contribution to medicine." This first volume of the fourth series can be obtained from the Superintendent of Documents, in cloth binding for $2.50.

ADDITIONAL VOLUMES OF IMPORTANT SERIES

The Library of Congress began, in 1904, the printing of the Journals of the Continental Congress, 1774–1789, edited from the original records in the Library of Congress, the first time for these valuable records of consultation and legislative action to be printed as written and as they were kept by the office of the Secretary of Congress. Succeeding volumes have been issued through the years as funds have been available either from the printing funds of the Library or from those provided by private generosity. In the present Monthly Catalog, volumes 32 and 33 are listed, and contain the records from January 17 to December 19, 1787. These are listed at $2.25 a volume, in cloth binding, and are obtainable from the Superintendent of Documents.

The publication by the State Department of a series of volumes entitled Territorial Papers of United States was commented on at length in the Monthly Catalog for March 1935, p. 217. At that time, 3 volumes had been issued. Volume 4 is entered in this catalog and deals with the Territory South of the River Ohio, 1790–96. It is for sale by the Superintendent of Documents at $1.75, bound in cloth.

NEW PERIODICALS

The Farm Credit Quarterly, of which v. 1, no. 1, was issued with the date of March 31, 1936, is a new periodical, but it takes the place of an old one. The Farm Credit Administration has published a periodical since June 1933, entitled in the last issues: Statements of Condition of Federal Land Banks, Federal Farm Mortgage Corporation, Federal Intermediate Credit Banks, and Descriptive Summary of Production Credit Corporations and Associations, Banks for Cooperatives. The new quarterly is a continuation of the last-named publication and can be obtained on application to the Farm Credit Administration, Washington, D. C.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps and the series will be issued periodically to show any change in improvement of the highways.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. United States coast and intracoastal waterways pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey, in Washington, D. C.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 678. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

Business information service. [Processed.] † except as indicated in note below. C 18.182 and 183 :

NOTE.—This service, issued by the Marketing Research and Service Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any business organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations can obtain the service on a subscription basis, payable $10.00 annually, at the Foreign and Domestic Commerce Bureau.

C 18.185 : no.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States", and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being $1.00. Where the subscriber resides outside the United States an additional charge – usually $1.00 per year – is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1936 as follows:

1700—Summary foreign trade statistics. (5 statements.)
2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
2400—Finance; issued by Finance Division. (1 statement.)

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to $5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see p. 761.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1 : 31,680, 1 : 62,500, and 1 : 125,000, corresponding, approximately, to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Twenty-five of the topographic maps covering areas in New Jersey are out of print, the Survey not reprinting the maps as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which also publishes some of its maps on a larger scale. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to $5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1936, page 211.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment and have the endorsement of a Member of Congress."
Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

SOCIAL SECURITY BOARD

NOTE.—The Social Security Board was established under the provisions of H. R. 7260, 74th Congress (Public 271, approved Aug. 14, 1935), an act to provide for general welfare by establishing system of Federal old-age benefits, and by enabling the several States to make more adequate provision for aged persons, blind persons, dependent and crippled children, maternal and child welfare, public health, and administration of their unemployment compensation laws. The board was created to perform the duties imposed by this act and is also charged with the duty of studying and making recommendations as to the most effective methods of providing economic security through social insurance, and as to legislation and matters of administrative policy concerning old-age pensions, unemployment compensation, accident compensation, and related subjects.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within

well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 89 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, National Archives, see Federal Register Division, *Federal register*, p. 783.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.
